

Lifestyle Family Dentistry Office of Dr. Dave Cutts

"My family needs to have you for their dentist..."

Dear Dr. Cutts:

Thank you so much for the TLC when you did the root canal for me. I have had no problems of any kind, and it really wasn't bad at all. In fact, if they are all like that one, I prefer it to having one of the molars filled! As you know, it was something I had dreaded for years after hearing so many horror stories, but I guess my family needs you for their dentist!

And to top it off, the jaw doesn't ache any more either, so evidently your x-ray was accurate and that was the problem. I still haven't done much chewing on that side, and am taking it easy when brushing and flossing but will completely forget about it soon.

Thanks again. I'll see you in three months.

-Joy

We Love Referrals!

Do you have a friend or family member that could use a great dentist, like Joy?! Send them on over! We'd love to take great care of your loved ones and friends and can't wait to help in anyway we can.
